Our Benefits :

- INTEREST-BASED LEARNING
- MULTI-DEVICE SUPPORT
- DISTRACTION-FREE LEARNING

Android App designed for:

Smart TV Tablet Mobile

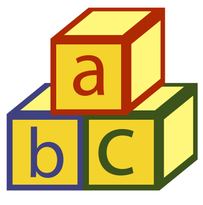

ABR EduZone Pre Android App

ABR EduZone Pre is a complete digital learning App designed especially for pre-primary children. Built to work smoothly on TV, tablet, and mobile, it makes learning more engaging, interactive, and enjoyable for young minds. The app combines fun-based education with structured learning to support early development in a smart and modern way. With full access controls for parents and teachers, **ABR EduZone Pre** ensures children stay focused on safe and meaningful content without unwanted distractions. Our goal is to bring learning and technology together, helping every little learner grow confidently in today's digital world.

Sports

Vehicles

Regular Updates

The app will be regularly updated with new learning sections, improved content, and better design styles based on feedback from parents and teachers.

Smart Features. Real Benefits.

✅ Interest-Based Learning

Our app offers diverse learning options—from basic concepts to the world around us. Children can learn based on their interests, making learning more engaging, natural, and enjoyable.

✅ Safe Learning (No Ads)

ABR EduZone Pre provides a distraction-free learning environment. Children can learn without advertisements, unwanted pop-ups, or unsafe external links.

✅ Works Offline

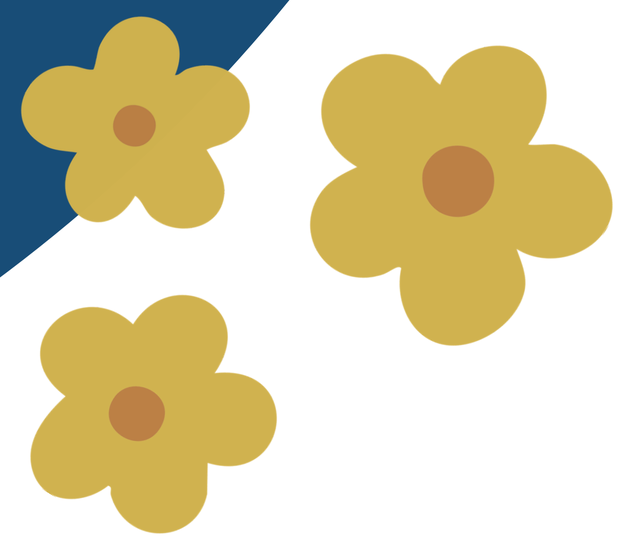

Once content is available or downloaded, children can continue learning even without internet. This is very useful for homes or areas with low network availability.

✅ Multi-Device Support

ABR EduZone Pre works smoothly on Smart TV, Tablet, and Mobile, so kids can learn comfortably on any device — at home or on the go.

How to Register & Activate ABR EduZone Pre App

Option 1: Register via Website

- Visit our website: **abrolgroup.com**
- Go to **ABROLTechN → TechN Products → ABR EduZone Pre.**
